

Plastic Infrared Crystallization Dryer

Packer is one of the China plastic infrared crystallization dryer manufactures and suppliers. Plastic Infrared Crystallization Dryer is for crystallization and drying plastic flakes. The drum of Batch by batch IRD use stainless steel rotary drum with diamond-shaped material module instead of internal helix transports material with tumbling action to expose all surfaces to infrared rays.

Product Introduction

China Infrared Dryer | Infrared Blow Dryer In Stock

We now have quite a few superb workers customers very good at marketing and advertising, QC, and working with forms of troublesome dilemma while in the creation approach for IOS Certificate China Plastic Infrared Crystallization Dryer Machine, We've been devoted to provide experienced purification technology and options for yourself! IOS Certificate China Plastic Crystallizing Dryer Machine, Plastic Infrared Crystallization Dryer, We follow up the career and aspiration of our elder generation, and we are eager to open up a new prospect in this field, We insist on "Integrity, Profession, Win-win Cooperation", because we have a strong backup, that are excellent partners with advanced manufacturing lines, abundant technical strength, standard inspection system and good production capacity.

Infrared Blow Dryer | Infrared Conveyor Dryer | Plastic Infrared Crystallization Dryer & Introduction

PACKER® Plastic Infrared Crystallization Dryer is for crystallization and drying plastic flakes and pellets.

1. Plastic Infrared Crystallization Dryer is mainly used for crystallization and drying PET flakes. PET pellet. PP/PE pellet. PLA pellet and so on.
2. To crystallization and remove moisture from plastic flake and pellet.
3. Capacity can be 100-1000kg/h

PACKER® Plastic Infrared Crystallization Dryer is for crystallization and drying plastic flakes. The drum of Batch by batch IRD use stainless steel rotary drum with diamond-shaped material module instead of internal helix transports material with tumbling action to expose all surfaces to infrared rays.

PACKER® Plastic Infrared Crystallization Dryer is easier to adjust the rotation speed of the drum according to the characteristics of the material. According to the flow of materials, user can adjust the speed of the drum without affecting the material drying time.

Infrared Drying | Plastic Infrared Crystallization Dryer & features

1. Final moisture is 100-200PPM
2. Capacity can be from 100kg/h-1000kg/h.
3. 100% closed running. PLC control.
4. Plastic Infrared Crystallization Dryer has energy saving and high drying efficiency.

Infrared Dryer Manufacturers | Plastic Infrared Crystallization Dryer & Specification

Plastic Infrared Crystallization Dryer			
Capacity	Heating power(KW)	Crystallization and Drying time	Suitable materials
80-120kg/h	7	15-20mins	PET flakes. PET pellet. PP/PE pellet PLA flakes/Pellet and some other types materials.
200kg/h	13.5	15-20mins	
300kg/h	27	15-20mins	
500kg/h	36	15-20mins	
1000kg/h	67.5	15-20mins

Company

[RUGAO PACKER MACHINERY CO.,LTD](http://www.rcpackermachinery.com) was built in 2015. We are trading company and manufacturer for Plastic Infrared Crystallization Dryer .Plastic recycling machines, [Mask making machine](#) and so on. We have professional technical team for technical support and service.

Deliver,Shipping And Serving

Delivery: 45 days after getting the payment.

Shipping: By sea

Service: 1 year guarantee. After guarantee. We will keep all parts as cost price for our customers.
And service for all life.

Servicing:

1. Professional technical team for offering our customers professional suggestions. To get most reasonable technical for the production line.
2. Sales will follow the order and report to customer the production real situation every one week.

24 hours online-service and help customers to solve problems asap. Offer all necessary documents and manual book to customers for helping to installation Plastic Infrared Crystallization Dryer. We also offer technical to be at customer factory for installation and testing. Service whole life for our customers.

How to order

[Inquiry](#) → Preferential quotation → Sign the contract → Receive 100% statement → Party B production → Party A inspection → Logistics → Delivery → After-sales service
