

Plastic master batch pellet dryer

A PACKER® Plastic master batch pellet dryer made in China is used to crystallize and dry plastic masterbatches. Our products are CE certified and have been well received by customers in the global market, easy to maintain and cheap; welcome to order!

Product Introduction

Buy Plastic master batch pellet dryer | Plastic pellet dryer In Stock

We now have our own gross sales team, style and design workforce, technical crew, QC workforce and package group. We now have strict quality manage procedures for each system. Also, all of our workers are experienced in printing industry for Massive Selection for

Plastic master batch pellet dryer

Made in China, All costs depend upon the quantity of your respective order; the additional you order, the extra economical the cost is. We also offer good OEM assistance to numerous famous brands.

Massive Selection for [China Plastic Auxiliary Machine](#), Pet Flakes Granulation Machine, Pet Flakes Pelletizing Machine, our quality products and solutions have good reputation from the world as its most competitive price and our most advantage of after-sale service to the clients. we hope we can supply a safe, environmental goods and super service to our clients from all of the world and establish strategic partnership with them by our professional standards and unremitting efforts.

Plastic master batch pellet dryer | plastic pellet desiccant dryer & Introduction

PACKER® Plastic master batch pellet dryer is for crystallization and drying plastic master batch pellet.

Plastic master batch dryer is mainly used for crystallization and drying PET. PP PE master batch pellet.

- 1.To crystallization and remove moisture from plastic pellet.
- 2.Capacity can be 100-1000kg/h

Plastic master batch dryer is for crystallization and drying plastic master batch pellet. The drum of Batch by batch IRD use stainless steel rotary drum with diamond-shaped material module instead of internal helix transports material with tumbling action to expose all surfaces to infrared rays. It is easier to adjust the rotation speed of the drum according to the characteristics of the material. According to the flow of materials, user can adjust the speed of the drum without affecting the material drying time.

It's easy to clean and change color. The drum can be opened completely and clean. Rotary drying system is running and mixing materials always without melting problem.

PACKER® Plastic master batch pellet dryer | plastic pellet desiccant dryer & features

- 1.Final moisture is 100-200PPM
- 2.Capacity can be from 100kg/h-1000kg/h.
- 3.100% closed running. PLC control.
- 4.Energy saving and high drying efficiency.

Specification of Plastic master batch pellet dryer

Plastic master batch pellet dryer			
Capacity	Heating power(KW)	Crystallization and Drying time	Suitable materials
80-120kg/h	7	15-20mins	PET flakes. PET pellet. PP/PE pellet PLA flakes/Pellet and some other types materials.
200kg/h	13.5	15-20mins	
300kg/h	27	15-20mins	
500kg/h	36	15-20mins	
1000kg/h	67.5	15-20mins
