

PP Films And Flakes Compactor Noodle Type Granulating Machine

PACKER® PP Films And Flakes Compactor Noodle Type Granulating Machine is for granulating PP PE films, PP woven bags, PP injection flakes and some other PP PE materials to pellet. You can rest assured to buy customized PP films and flakes compactor noodle type granulating machine made in China from us.

Product Introduction

Buy PP Films And Flakes Compactor Noodle Type Granulating Machine Made In China

Gaining purchaser fulfillment is our company's purpose without end. We will make terrific initiatives to acquire new and top-quality solutions, meet up with your exclusive specifications and provide you with pre-sale, on-sale and after-sale providers for Quality Inspection for China High Efficiency PACKER® PP Films And Flakes Compactor Noodle Type Granulating Machine, With advantage of industry management, the company has always been committed to supporting customers to become the market leader in their respective industries.

Quality Inspection for [China Plastic Auxiliary Machine](#), [Plastic Crusher](#), As an experienced group we also accept customized order and make it same as your picture or sample specifying specification and customer design packing. The main goal of our company is to build up a satisfactory memory to all customers, and establish a long term win-win business relationship. Choose us, we always wait for your appearance!

Introduction of PP Films And Flakes Compactor Noodle Type Granulating Machine

PACKER® PP Films And Flakes Compactor Noodle Type Granulating Machine is for granulating PP PE films, PP woven bags, PP injection flakes and some other PP PE materials to pellet.

It's designed with latest technology, a very integrated system which can be used for a wide range of materials, the extruder is combined together with compactor and feeding belt, the raw material will be compacted firstly in the compactor, then get into screw immediately, in this way, the material feeding is much more stable and the output is bigger, especially for LDPE film, PP bags and other material. The compactor equipped with cutting blades can process massive material like shopping bags, woven bags, and film in roll, no need to crush the materials in advance. With frequency control, this machine also can process rigid regrind materials.

PP Films And Flakes Compactor Noodle Type Granulating Machine features:

- 1.It has compactor to crush, agglomerating materials. And press into extruder screw. To improve capacity to be more.
- 2.Capacity can be from 100kg/h to 1000kg/h for films and woven bags. For flakes. Capacity will be more.
- 3.Noodle type granulating line is working by cooling tank. This cutting type can work for most PP PE materials. Such as PP MFI 10-25. It can work perfect.
- 4.With non-stop hydraulic screen changer.
- 5.This line can be single stage or double stages as customer's requirement.
